OVERVIEW
As an essential element of the SkillsUSA Framework, Integrity guides members to do the right thing in a reliable way, allowing individuals to earn the trust and respect of others. Integrity is shown by being honest, doing what one says they will do, holding themselves and others accountable, as well as making choices consistent with their values. The expectation is that integrity is demonstrated by all members and individuals involved with this year’s SkillsUSA State Championships.

STATEMENT OF INTEGRITY
By signing to the right, the contestant, contest advisor and proctor agree to the following:

- The submitted video will be unedited and completed within a single take as well as other aspects of the portions of the project as applicable.
- During the contest, the contestant(s) will remain on camera and not interact with outside individuals.
- The contest advisor will make sure all equipment and facilities are safe and ready for a fair contest.
- Contest advisors will exclude themselves from making decisions that would affect the outcome of the contest and allow judges to make critical decisions without trying to persuade them in any way.
- Once the competition beings the contest advisors will not interact with the student(s) except for when required for safety.
- The first and only recording of the contest will be uploaded for submission.
- The video uploaded will be unedited with no alterations made to remove mistakes or gain a competitive advantage.
- The Local Proctor was present for the completion of the recording.
- The proctor should review the contest’s technical standards, contest guide and state contest prior to the recording and follow the proctor instructions outlined within the state contest.
- At the start of the recording, the proctor will read a statement on camera, validating that this is the first and only take of the contest and then move out of the shot.
- No outside resources were used during the presentation, demonstration and/or display.
- All cell phones and other electronic devices (except for filming devices) were turned off during the recording.
- All individuals involved with completing this submission acted with integrity as defined above.
