SkillsUSA Championships

The SkillsUSA Championships program assesses and recognizes career and technical education students. It engages students by testing their skills against standards for entry-level workers in the skilled trades through authentic skill demonstrations. Students are evaluated by expert representatives of business, industry and organized labor. The SkillsUSA Championships program connects the work done by students at the local level to the national level through programming offered at the district, regional, and state levels.

ATLANTA | JUNE 2022
**Competition Updates**
Updates will be posted to the link below. This page will be updated continuously leading up to NLSC:  
[www.skillsusa.org/competitions/skillsusa-championships/contest-updates/](www.skillsusa.org/competitions/skillsusa-championships/contest-updates/)

**Request for Accommodation**
SkillsUSA is committed to providing equal access during our national conference. Please use this form to request accommodation or assistance for national contestants at NLSC. Our staff will review each request and contact the requestor if additional information is needed to provide services. Please submit all requests by June 1, 2022.

This form should be used for national contestants or participants who:
- Require the assistance of another person at the orientation meeting and/or during the competition. (Submit this form along with the official contestant registration form.)
- Have a disability that may require adaptations or accommodations.
- Have hearing impairment and will need the support of a sign language specialist for the contest orientation, beginning of the contest and/or the debriefing. If a signer is needed for longer intervals or for the whole day, SkillsUSA will work with state SkillsUSA directors on an individual basis.
- Have food allergies, diabetes or other health concerns or conditions.
- Use a wheelchair, walker or crutches.
- Require a translator due to a language barrier (note: state associations must cover the cost of translation services, if needed).

**Fill out the form online**

Deadline: Submit all requests no later than June 1, 2022.

If you have questions, contact Darren Gibson dgibson@skillsusa.org
**Professional Development Testing**

New for this year, professional development testing will be conducted pre-conference via the new SkillsUSA Online Testing Platform. Offering this as a pre-conference test alleviates the test administration duties from state directors while also providing student competitors the opportunity to take the test at a time and location that is most productive for them.

Competitors registered by May 17 will receive information on how to test on or before May 25. Registered competitors will receive an email to the email address affiliated with NLSC conference registration with their assigned username, password, and login URL. In addition to the information being sent directly to competitors, user credentials of all registered competitors from your state association will be emailed to the state director. State Directors are encouraged to disseminate this information to their advisors to ensure that all competitors are able to access their online test.

Please encourage your competitors to take this assessment, as it is worth 2.5% of their total overall score. All Professional Development Tests must be completed by 5 p.m. ET on Tuesday, June 21 to be scored. Failure to complete the test by this deadline will result in a score of zero for that portion (2.5% or 25 points) of the contest scorecard.

As a reminder, contestants in Action Skills, Building Maintenance and Community Action Project are not required to complete the professional development test and will thus not be enrolled in a test.

**Testing for students added/substituted**

No additions or substitutions will be accepted after May 17 and prior to conference. Please have all substitutions and additions ready for your on-site registration appointment at the Georgia World Congress Center. All substitutions and additions will be processed at this time. Following your appointment, any students who have been added will receive an enrollment email at the end of the day on Sunday, June 19 notifying them of their enrollment. Any addition of contestants after your on-site registration appointment and prior to Tuesday, June 21 at 12 p.m. will receive an enrollment email by 2 p.m. on Tuesday. All students substituted or added should complete any assigned tests by 5 p.m. on Tuesday, June 21. Failure to complete the test by this deadline will result in a score of zero for that portion of the contest scorecard.

**Limited Online Contest Testing**

This year, SkillsUSA is excited to be running a pilot program designed to assess the feasibility of online, pre-conference technical assessments. This pilot program will utilize competitors from the following contests:

- Quiz Bowl
- TeamWorks
- Welding
- Principles of Engineering Technology

In addition to the aforementioned professional development assessment, competitors from these select contests will also have a technical assessment for their contest loaded into their online testing account. These contest tests must be completed by Friday, June 10 to provide SkillsUSA and the national technical committees time to tabulate scores. SkillsUSA will communicate this deadline to all competitors in these contests via email.
